20170527 SET2 5-25 Anaconda OU8 ROD DR ig.docx

::

Hey Dante,

I reviewed all of your changes and comments/edits, and find them all reasonable and acceptable. I made a couple other comments to clarify as well as responding, as below, in my one requested section. The one that I need to research is the RCRA C question, and I will do that on Tuesday morning. My understanding that no mining closure repositories are managed under RCRA regs, but are covered under BMRR closure regs, but I will find out and let you know.

Thanks, and have a great weekend!
Thanks for working through all of this so expediently!
Jeryl

Subject: update on ROD

Team,

End of the day report-out on ROD progress. I am going through the CBI edits and NDEP comments, accepting edits and making my own edits. I have gotten all the way up to the Short-term Effectiveness section of the Comparative Analysis. I identified just a couple questions for CBI or NDEP that I highlighted in the comment field, including pgs. 2-30, 2-31, 2-33, 2-40, and 2-41. Can you guys please start following up on those, while I finish up my review? Attached is my current review (my notes are in the comments). Thanks!

Dante Rodriguez
